

TUNGSTEN CARBIDE ROTARY BURRS

TUNGSTEN CARBIDE ROTARY BURRS

For more than 40 years NOGA has been recognized worldwide for it's state-of-the-art Hand Deburring Tools, designed to be used extensively in industrial applications.

Now we are proud to introduce our new Tungsten Carbide Burrs for metal removing.

This product line has been developed and produced especially for Noga, working closely with our engineers and receiving customer's feedback to ensure ours and your high levels of satisfaction.

Oval

This selected program contains the 10 most popular shapes in 5 different head diameters. All are in the universal double cut style for use on most ferrous metals.

Our high quality materials and brazing technology deliver consistent performance with longer tool life.

Our burrs in this universal double cut style are highly recommended for steel, stainless steel, cast iron, titanium, nickel and copper.

Cone

A good tool improves the way you work.

Our tools improve the products you make.

Noga is innovation

Burrs have a carbide head brazed on a steel shank but our 6mm burrs are all made out of solid carbide!
